OBJECTIVE

Final-year Computer Science student with solid programming fundamentals, knowledge of data structures, and hands-on experience in full-stack development and machine learning, focused on building scalable and efficient applications.

EDUCATION

S.R.M Institute of Science and Technology Bachelor of Technology in Computer Science and Engineering	June 2022 - May 2026 CGPA – 8.76/10
Narayana Junior College BIEAP - Intermediate Education	June 2020 - May 2022 Percentage – 93%
Narayana High School BSEAP - Class X	June 2019 - May 2020 Percentage – 100%

SKILLS

Languages	HTML, CSS, Java Script, Python, SQL
Tools	Power BI, Alteryx, VS Code, MySQL, Notebook LLM, Git, Cursor
Domain Knowledge	Machine Learning, Data Analytics, Object Oriented Programming, Data Structures And Algorithms
Soft Skills	Critical Thinking, Attention to Detail, Problem Solving

PROJECTS

Alzheimer’s Disease Detection using MRI and Deep Learning (Transfer Learning with DenseNet) • Developed a deep learning model using DenseNet121 to classify MRI images into 4 Alzheimer’s stages achieving 92% accuracy. • Built a Flask-based web application for real-time prediction with automated PDF report generation. • Optimized preprocessing pipeline improving model inference speed by 20% Tech: Python, TensorFlow, Keras, CNN (DenseNet), Flask, NumPy, Pandas
Online Car Rental System • Developed full-stack web application for car booking and inventory management. • Implemented secure authentication and database operations using MySQL. • Improved user experience with responsive UI design. Tech: HTML, CSS, JavaScript, PHP, MySQL
Prediction of Parkinson’s Disease • Designed hybrid LSTM + DBN model for Parkinson’s disease detection improving classification performance. • Applied SMOTE and hyperparameter tuning to handle class imbalance and enhance accuracy. • Visualized training and validation performance for model evaluation. Tech: Python, Machine Learning, Deep Learning

CERTIFICATIONS

• AWS Machine Learning Foundations • IBM Web Development • Databricks Data Engineer Associate
--

HACKATHONS

Semi – Finalist in Tech – Hacks Organized by BVRIT, Telangana.
Participation in The Blue Bit Hackathon 2.0 Organized by PCCOE, Maharashtra.
